Press Release

Veterans and Advanced Brain Technologies team up to provide relief from the symptoms of PTSD, TBI, Anxiety and Insomnia.

Historically, veterans helping veterans, has produced extraordinary results in helping the Veterans Administration support veterans. Whether its “veterans working with veterans” or a veteran non-profit organization working with our Veterans Administration to provide a pathway forward for veterans and their health issues, “calibration” is the key.

A Viet Nam combat veteran who suffered from PTSD and TBI founded pathways for Veterans. His only desire was to continue serving his country. For over 17 years, following his discharge from service, he turned to drugs and alcohol to deal with the emotional pain he carried inside from combat. Following a death experience he discovered a pathways forward without using prescribed or non-prescribed drugs or medications. For the past 29 years he has dedicated his life’s work to serving others, which provided the necessary research for the development of the Pathway’s “ At Ease Reset Protocols”. These Pathways programs are currently providing relief to countless number of veterans.

Effective February 1 2016 Pathways for Veterans is implementing “The Listening Program” by Advanced Brain Technologies into the Pathways “At Ease Reset Protocols”. This calibration is a game changer for our veterans. The use of The Listing Program in conjunction with the structured Pathways programs will not only support the veterans with their health issues, it will provide the much needed support to the Veterans Administration. As Americans we are all in this together and our responsibility to support our veterans is no grater than that of supporting our Veterans Administration. A coalition of service providers is the key ingredient for the successful reintegration of our military into civilian life while meeting the challenge of their health care needs.

As the founder and current CEO of Pathways for Veterans I have personally experienced “The Listening Program” and relief PTSD and insomnia. The possibility of symptom relief for our veterans is very exciting. Please visit www.Pathwaysforveterans.org or call my direct line at 1-916-932-6549 for more information on this exciting new development for our veteran community.

Respectfully
Gary Ferguson
